Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a character data processing method in a system which comprises a personal computer and a facsimile machine connected through a public network to a remote facsimile machine connected through an interface to the personal computer, by inputting key code data by a keyboard of the personal computer, converting the key code data input in the input step into character code data for the facsimile machine by referring to a conversion table, and registering the obtained character code data in a database, and transferring the character code data for the facsimile machine registered in the database in the registration step to the remote facsimile machine through the facsimile machine as claimed in claim 95. Similar features are claimed in claims 96, 98, 100, 101, and 103. Therefore, claims 96, 98, 100, 101, and 103 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
